Notes to the financial statements	8
Statement pursuant to Listing Rule 5.75.3	9

Half-yearly Directors' Report pursuant to Listing Rule 5.75.2

The directors present their report together with the unaudited consolidated financial statements of Mediterranean Investments Holding p.l.c. for the six-month period ended 30 June 2021. The group comprises the company, its two subsidiaries, Palm City Ltd and Palm Waterfront Ltd, and its associate, Medina Tower Joint Stock Company for Real Estate Investment and Development.

Basis of preparation

The published figures have been extracted from the unaudited consolidated financial statements of Mediterranean Investments Holding Plc for the six months ended 30 June 2021 and the comparative period in 2020. The comparative Statement of Financial Position as at 31 December 2020 has been extracted from the audited financial statements for the year then ended. This report is being published in terms of Listing Rule 5.74 issued by the Malta Financial Services Authority – Listing Authority and has been prepared in accordance with the applicable Listing Rules and the International Accounting Standard 34, 'Interim Financial Reporting'. In terms of Listing Rule 5.75.5, the Directors are stating that this Half-Yearly Financial Report has not been audited or reviewed by the auditors of the Group.

Accounting Policies

The accounting policies adopted in the preparation of the 2021 Group Half-Yearly Report are the same as those adopted in the preparation of the audited financial statements for the year ended 31 December 2020.

Principal activities

The principal activity of the Group is to directly or indirectly acquire, develop and operate real estate projects in North Africa and invest in any related trade or business venture.

Review of the business

During the six-month period under review, the Group's revenues amounted to €11.82 million (2020 - €12.48 million), a 5% decrease in revenue over the corresponding period the year before, primarily as a result of the devaluation of the Libyan Dinar at the start of the year on part of the revenue generated which is invoiced in Libyan Dinar. In parallel, operating costs increased by nearly €0.50 million over the corresponding period last year. A contributing factor to increased operating costs is an increase in the provision for repairs and replacements of a capital nature, which, as a result of the accounting policy of treating Palm City as an investment property, have to be expensed through the income statement. Operating profit amounted to €8.16 million (2020 - €9.18 million). There was a sharp increase in finance costs in the period under review due to the provision for exchange losses recognised on assets and liabilities expressed in Libyan Dinar on the devaluation of the said currency in early January 2021. The profit before tax for the period under review amounted to €2.95 million (2020 - €6.89 million). Having utilised most of the tax losses in the previous financial year, Libya tax is being provided for on the profits generated at Palm City Ltd in these financial statements.

The average occupancy at Palm City Residences for the first six months of the year was 53.1% (2020: 50.2%).

State of Affairs

As at the end of the June 2021, the group's assets stood at €311.90 million, down from €326.60 million as at 31 December 2020 primarily as a result of the decrease in cash and cash equivalents due to the redemption of the €12 million 6% bond in June and also as a result of exchange losses on bank balances denominated in Libyan Dinars. Concurrently, current liabilities decreased from the comparative year-end figure due to the redemption of the €12 million bond in June. Other changes in current liabilities relative to the comparative figures, include other borrowings which are due within one year, and the remaining dividend payable, which although classified as current, its repayment is subject to free cashflow availability. By the end of June, €6 million of the declared dividends in 2020 were still unpaid.

Outlook

Notwithstanding the recent rise in positive Covid cases in Libya, management remains confident that occupancy levels will increase during the second semester as confirmed leases are signed with major clients whilst other leases are expected to be signed throughout July and August.

As always, management remains in contact with clients in an effort to understand their requirements, and measures are constantly taken in order to keep the property in pristine condition, allowing Palm City to be able to accommodate clients as soon as leases are concluded.
